

Capability Statement

ALEXANDRIA PEST SERVICES, INC. (APS) is an established, growth oriented company that provides pest control services to commercial, state & local government and federal government by using best practices, product and equipment to provide the safest and most efficient method of controlling pests.

Based on values of integrity, ethics, and professionalism, our technicians are certified and have over 200 years in industry experience. APS trains each technician—our most valuable resource—to deliver excellent service to our customers. We become fully familiar with our customer's environment and specific requirements. APS cultivates lasting business relationships built on our strengths and values.

OUR APPROACH

- Effective pest control from sound training, products, techniques and tools.
- We are never tempted to offer clients a 'quick fix' because we believe that the success of our business depends on delivering a service that we can be proud of.
- We look at the 'big picture' and 'think outside the box' to make our recommendations.
- Positive approach and solutions for today and tomorrow.
